High Growth Business Support Workshop 6/4/17

Supporting organisations to make successful applications to the ERDF Priority Axis 3 programme call – Enhancing the Competitiveness of Small and Medium-Sized Enterprises.

The call to support the delivery of the D2N2 High Growth Business programme closed on 13 May 2017.

To support organisations to understand the strategic priorities of the call D2N2 LEP hosted a free workshop on Thursday 6 April 2017 in Chesterfield. The workshop was designed to support organisations make good quality applications to deliver projects that will to enhance the competitiveness of small and medium-sized enterprises (SMEs) that specifically:

- support the creation and extension of advanced capacities for products, services and development
- support the capacity of Small and Medium Sized Enterprises to grow in regional, national and international markets and to engage in innovation

D2N2 ESF Workshop – Chesterfield 8/3/17

The purpose of this workshop was to provide local authority staff with an understanding of how our current contracted provision will operate at a local authority level, including district level. All current contracted ESF providers (excluding Nottingham YEI providers) gave a presentation on their priorities for delivery, learner journeys, employer engagement strategies (where appropriate) and links with other programmes. The event gave an overview of the network of ESF provision in D2N2 and provided opportunities to make supporting connections between providers and local authorities.

D2N2 ERDF Workshop - Nottingham and Nottinghamshire 16/2/17

D2N2 European Regional Development Fund Opportunities: supporting organisations to make successful applications to the ERDF programme in D2N2.

With the ERDF Priority Axis 4 Low Carbon Call, and further ERDF calls planned throughout 2017 Nottinghamshire County Council, in partnership with the D2N2 LEP, hosted a free workshop on Wednesday 16 February 2017 at the National Civil War Centre, in Newark.

The event included inputs from the D2N2 LEP and led by the Technical Assistance project in N2 (Nottingham and Nottinghamshire) providing examples of organisations that are currently managing projects supported by the European Regional Development Fund.

The workshop was designed to support organisations with their applications to deliver projects that will support economic growth and a shift to a low carbon economy across D2N2 LEP in the following areas:

- Enhancing the competitiveness of small and medium sized enterprises.
- Promoting Research and Innovation
- Enhancing access to, and use and quality of, Information and Communications Technology.
- Supporting the shift to a low carbon economy

D2N2 European Social Fund Open Calls Workshops November 2016

In light of the recent ESF DWP open calls in Derbyshire and Nottinghamshire, D2N2 held two workshops in Derby and Nottingham in November 2016. The workshops were attended by over 70 skills and training organisations.

The events gave information on the local strategic priorities for the D2N2 ESF programme and were designed to support potential applicants interested in applying to deliver the following ESF programmes:

- Higher Skills Development – enhancing opportunities and pathways to higher skills
- Developing Sector Growth – focussed support to small and medium sized employers in the D2N2 Growth sectors
- Enterprise, Innovation and Pathways – enhanced access to employment and careers support

D2N2 LEP ERDF PA4 TECHNICAL ASSISTANCE WORKSHOP - supporting the shift towards a low carbon economy 16/11/16

In anticipation of the ERDF Priority Axis 4 Low Carbon Call, D2N2 LEP held a free workshop on Wednesday 16 November 2016 at the Enterprise Centre, University of Derby in Derby.

The event included inputs from the Department of Business, Energy and Industrial Strategy (BEIS) and the Department for Communities and Local Government (DCLG) in addition to local projects that are currently managing low carbon projects supported by the European Regional Development Fund.

The workshop was designed to support organisations in this planning phase to develop potential applications to deliver projects that will support the shift towards a low carbon economy across D2N2 LEP in the following areas:

- Promoting the production and distribution of energy derived from renewable resources.
- Promoting energy efficiency and renewable energy use in enterprises.
- Supporting energy efficiency, smart energy management and renewable energy use in public infrastructure, including in public buildings, and in the housing sector.
- Promoting low carbon strategies for all types of territories, in particular for urban areas, including the promotion of sustainable multimodal urban mobility and mitigation-relevant adaptation measures.
- Promoting research, innovation and adoption of low carbon technologies.
